

Permit # _____

WATERSHED MANAGEMENT SERVICES UTILITY PERMIT

| | | |
|-----------------|--|----------------------------|
| Utility type | | Today's Date |
| Contractor Name | | Phone |
| Address | | E-mail ** must be provided |
| Contact | | Phone |

Utility projects 5 feet or more in depth regardless of the area of disturbance require a permit. Projects with a total area of disturbance 500 square feet or greater require a permit.

Utility projects less than one acre must be submitted 5 working days prior to the start date. Projects greater than one acre must be submitted 10 working days prior to the start date. One acre or greater projects must submit a posted NOI prior to approval.

Project Information

| | | |
|---|---|---|
| Address or closest address to the work area | | Grid # |
| Area of Disturbance | Construction Start Date | Permanent Stabilization Date |
| Stream Crossing Yes No | Work in Wetlands Yes No | Excavation Dewatering Yes No |
| Work is part of a Building Permit or Land Use Permit Yes No | Building Permit or Land Use Permit is Approved Yes No | Work is part of the permitted ESC plan Yes No |

If you answer yes to the last three questions a Utility Storm Water Permit is not required.

Utility projects will use the MOA AG 21 handout for guidance on Stormwater Pollution Prevention Plan (SWPPP) requirements. This document may be obtained on the Municipal Web page, under Development Services Handouts.

<http://www.muni.org/Departments/OCPD/development/bsd/Pages/Handouts.aspx>

Most projects will only need a SWPPP Type 1, which is the AG 21, Checklist #1. If you are going to have excavation dewatering you will also need to complete the dewatering request form in the back of the handout. All projects greater than 10,000 square feet in area of disturbance will need to complete AG 21, Checklist #3.

Signature _____ date _____

I agree to comply with MOA and ADOT requirements for the work on this project. I understand this permit does not authorize any allowances to deviate from State and MOA laws, statutes, regulation or guidance. I will comply with the MOA, State of Alaska and Federal rules for compliance of construction erosion and sediment control practices and water quality statutes. I understand if my ESC practices are not in compliance or are not functioning as proposed, I will correct these practices or implement additional practices to be compliant with MOA, State of Alaska and Federal rules.

Approved _____ date _____
